## Summary

Full-stack Software Engineer experienced in building and maintaining SaaS platforms with Laravel, React, and desktop technologies. Core developer of TimoDesk, handling backend systems, desktop applications, server infrastructure, Amazon S3 storage, and CI/CD workflows. Experienced in time tracking, visual builders, payment integrations, and production troubleshooting across web, macOS, and Windows applications.

## Technical Skills

**Frontend:** React, Next.js, Redux, Tailwind CSS, Bootstrap

**Backend:** Laravel, PHP, CodeIgniter, Node.js, REST APIs

**Desktop Development:** Electron, Swift for macOS, C#/.NET for Windows

**Databases:** MySQL, MongoDB, SQLite

**Infrastructure & DevOps:** Linux, Ubuntu, AlmaLinux, Amazon S3, CI/CD, cPanel, WHM

**Languages & Version Control:** JavaScript, TypeScript, PHP, Swift, C#, Python, Bash, Git, SVN

## Professional Experience

### THESOFTKING LIMITED

Nov 2023 – Present

Full-stack Software Engineer

- Serve as a core developer of TimoDesk, working across its web platform, desktop applications, and infrastructure.
- Build and maintain Laravel SaaS modules, REST APIs, dashboards, and React/Next.js frontend applications.
- Develop and maintain desktop applications using Electron, native Swift for macOS, and .NET for Windows.
- Handle production servers, Amazon S3 storage, deployments, and CI/CD workflows.
- Troubleshoot production issues involving time tracking, synchronization, payments, and reporting.
- Improve performance through database query optimization, caching, and frontend and desktop application improvements.
- Build and maintain commercial CodeCanyon products.

### ITDEALBD

May 2022 – Oct 2023

Full-stack Software Developer

- Built and maintained React UI components for web applications.
- Resolved frontend and integration issues in Laravel-based systems.
- Collaborated with the team to investigate production bugs and improve responsive layouts and frontend performance.

## Education

### Uttara University

In Progress

Computer Science & Engineering

### Rangpur City Institute of Technology

2019 – 2023

Diploma in Computer Technology

Four-year program

## Selected Projects

---

### TimoDesk

**timodesk.com**

*SaaS Time Tracking & Workforce Management*

*Core Developer*

- Develop Laravel backend modules, web interfaces, and production infrastructure for projects, teams, timesheets, reports, and productivity analytics.
- Build desktop time tracking, screenshot capture, activity monitoring, and idle detection in Electron, Swift for macOS, and .NET for Windows.
- Implement offline synchronization and reliable session handling; investigate tracking discrepancies and improve desktop stability and memory usage.
- Manage servers, deployments, CI/CD workflows, and Amazon S3 storage for screenshots and application assets.

**Related portals:** [client.timodesk.com](https://client.timodesk.com) | [partner.timodesk.com](https://partner.timodesk.com)

**Technologies:** Laravel, React, Electron, Swift, C#/.NET, MySQL, Amazon S3, Linux, CI/CD.

### ShotIt

**github.com/monirsaikat/shotit**

*Windows Screenshot & Annotation Tool*

*Creator*

- Built a C#/.NET desktop app with region, window, and full-screen capture; selections copy instantly while the annotation toolbar remains open.
- Added editable arrows, shapes, text, highlights, and redaction, plus searchable history, offline text recognition, QR scanning, pinned images, and custom hotkeys.
- Published x64 and ARM64 installers and portable builds; added optional uploads to Imgur, S3-compatible storage, SFTP, and FTP.

**Technologies:** C#, .NET 10, Windows APIs, SQLite, GitHub Releases.

### Fanels

**fanels.com**

*Sales Funnel & Visual Page Builder*

- Work on a platform for creating sales funnels, landing pages, and online checkout workflows.
- Develop visual builder functionality using React, reusable page elements, and editable styling controls.
- Work on lead capture forms, product checkout, and payment workflows.
- Maintain Laravel backend functionality and administrative interfaces.

**Technologies:** Laravel, React, PHP, JavaScript, MySQL.

### BuildEcom

**buildecom.app**

*No-Code Mobile App Builder for WooCommerce*

- Built a no-code platform that converts WooCommerce stores into mobile applications.
- Implemented dynamic Flutter source builds to generate Android APK and AAB files.
- Developed a WordPress plugin for integration with WooCommerce stores.
- Enabled users to configure and generate store-connected mobile applications.

**Technologies:** Flutter, WordPress, WooCommerce, PHP, Android APK/AAB build workflows.
